### Details

#### **Ice Fishing Display (11am-1pm) & Program (11am & 2pm)\***

Learn some tips and tricks to get started pulling fish through the ice and just how fun and rewarding it can be. Go on the ice to get the real experience at specific program times. If the ice is not thick enough for groups, this will be an on-land demonstration only. Led by PA Fish and Boat Commission educator, Cody Whipple.

#### **Audubon Display (11am-1pm)**

Members of the Tiadaghton Audubon will have birding displays and assist with bluebird box building.

#### **Bluebird Box Building (11am-1pm)**

Each family can build a box and take it home (free while they last!). Limited quantities. Led by PA Game Commission educator, Mandi Marconi and Game Warden, Mike Smith.

#### **~~Sledding (10am-3pm)\*~~ - SORRY – NO SNOW**

Bring your own or borrow a snow tube from a limited number provided.

#### **~~XC Ski & Snowshoe Mini-clinic / Sign-outs (1pm-3pm)\*~~ SORRY – NO SNOW**

Join park staff and volunteers for a short hands-on mini-clinic (snow-permitting) and then practice your skiing or snowshoeing at your own pace. Snowshoes, skis, boots and poles on-hand will fit most youth through adult (or you are welcome to bring your own).

#### **Winter Birding Walks (11:30am & 12:30pm & 1:30pm)**

Join members of the Tiadaghton Audubon for a short birding walk in the event area. Limited binoculars will be available as well as field guides and expert advice.

#### **Animals in Winter Interpretive Program (Noon & 1pm)**

Bears hibernate in winter, and some birds migrate, but what do other animals do in the colder months? Discover the different ways Pennsylvania wildlife spend the winter and some awesome adaptations that help them to survive. Interactive talk for all ages led by environmental educator, Kim Lott, from Sinnemahoning State Park.

\*Some activities may be modified or cancelled due to limited snow cover or ice thickness.
